

ADGE AFRICA

ADGE Africa is an African Business Incubation organisation specialising in accelerating the growth and increasing the success rate of start-up, early stage and growth focused Small and Medium Enterprises including Social Enterprises.

ADGE is a combination of the words Action and Knowledge which represent our commitment to deliver Knowledge Based Action.

The ADGE Africa Business incubator programme helps develop and support current and new entrepreneurs to start-up businesses and equip them for survival, longevity and growth as sustainable businesses. The business incubator target group includes small entrepreneurs that want to grow, new businesses and those who would like to develop their ideas and commercialise them. This programme aims to provide entrepreneur support activities that are necessary for SMEs to increase their contribution to their economy and enable them to transition to having stable businesses.

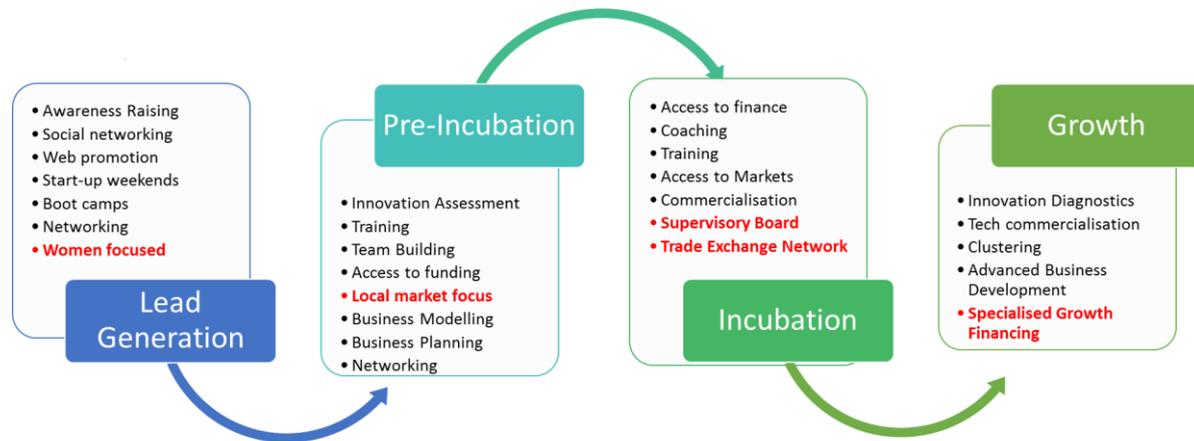

The ADGE Africa Entrepreneurial Boot Camp and Business Incubation Programme seeks to provide entrepreneurs with pro-active value-added support, and access to markets, access to critical tools, information, training, resources and capital that might otherwise be inaccessible or unknown.

Included in our repertoire are a number of innovative approaches, inter alia;

1. A targeted incubation selection algorithm;
2. Access to sustained growth phase capital;
3. Access to a community and social network of African small businesses;
4. The deployment of a bespoke Supervisory Board for SMEs.

In a globalised world that is increasingly homogenous, ADGE Africa's value proposition is to allow MSME's the freedom to grow in their uniqueness.

ADGE Africa Incubation Model

The ADGE Africa Boot Camp

The ADGE Africa Boot Camp for entrepreneurs and incubation process offers a rigorous development program, top-quality professional guidance, a Community of entrepreneurs and the possibility of seed funding to move entrepreneurs ahead of the crowd. Successful BootCamps were held in Harare and Johannesburg in 2016 and 2017. (ADGE Africa was previously called KBA Africa).
